4.1 — Thermal Specifications

Mandates that cargo must be maintained in the range of 2.0°C to 4.0°C at all times during the voyage. Any reading outside this range constitutes a deviation requiring immediate investigation.

4.2 — Carrier Default & Liquidated Damages

Any excursion exceeding 4.0°C for a continuous duration greater than 120 minutes (2 hours) constitutes an immediate, uncured Carrier Default. Upon Default, the Carrier assumes 100% financial liability for cargo loss, assessed at a declared value of $450,000 USD. This amount is agreed upon as a genuine pre-estimate of loss and is not a penalty.

5.3 — Claims Notification Window

Formal written notice of any claim must be submitted to the Carrier within 30 calendar days of cargo discharge. Failure to provide notice within this window shall constitute a waiver of all rights to claim against the Carrier for the affected cargo.
